## **ANALYSIS**

The applicant is requesting a Waiver to allow a non-standard streetlight per the Town Center Development Standards. At the time of applying for a certificate of occupancy, the applicant requested that non-standard streetlights would be installed with the intent that at a later time the non-standard lights would be removed and replaced with standard streetlights per Town Center Development Standards. On 07/10/07, the applicant requested an appeal with Public Works regarding the non-standard streetlight poles constructed within the project. The appeal was denied. As this request is a self-imposed hardship, staff recommends denial.

## **FINDINGS**

The objective of Policy B2 of the Town Center Land Use Plan is to implement Town Center street standards to govern the paving, design and use of roads and sidewalks to sustain pedestrian activity within the mixed use areas, where applicable, to connect to the Beltway Trail System and available open space. The applicant has placed in a non-standard light pole that is not consistent with the intent or the objectives of the Town Center Plan. Since no evidence of a unique or extraordinary circumstance has been presented, this request is a self-imposed hardship.
